

Dr. Carlos A. Rivera Villarreyes

Dr. Carlos Rivera is the Business Owner for FEFLOW at the DHI Group, where he is responsible for global business development and the strategic vision for the software's ongoing advancement. In this role, he represents FEFLOW internationally and works closely with users and partners worldwide.

Dr. Rivera has over 12 years of experience in numerical modelling across a wide range of application areas, including groundwater resources, mining, geothermal energy, and water quality. He has delivered numerous FEFLOW training courses around the world, providing instruction to professionals from research institutions, government agencies, and engineering and consulting firms.

Academic qualifications:

- Dr. rer. nat., University of Potsdam, Germany
- MSc. Water Resources, Ben-Gurion University, Israel
- Diploma in Civil Engineering, University of Piura, Peru
